

Born and raised in Stuttgart, Germany, I am an elementary school teacher with a Masters Degree in Bilingual Education. I taught at several elementary schools in Germany before I moved to San Diego to teach 3rd and 4th grade German at Albert Einstein Academies. Currently, I am staying home with my children (15y, 4y, 1y) who are bilingual. We enjoy our backyard, the beach, parks, and everything else San Diego has to offer. We have a cat and three chickens.

In our toddler and preschool play group, we will sing German songs and rhymes, talk about everyday objects and topics, read books, and dance. We will also celebrate and learn about seasonal cultural events, like Martinstag, Nikolaus, Karneval, and Easter. There will be plenty of time to connect with other parents and practice speaking German.
