

My name is Christiane Koenemund. I was born in Germany but have been living in the US for over 30 years. I have a German High School teaching credential, a Masters Degree in Special Education and a resource specialist certification. I have over 30 years of teaching experience, including a short time at the Albert Einstein Middle school in SD.

I lived in Kentucky for 8 years, where my husband and I had a horse farm and where I became a certified therapeutic riding instructor besides working at a school in special education. We moved back to San Diego when I retired and I have joined the board of the House of Germany. I like being involved with the German community in San Diego.

I love the opportunity to teach at the Kinderwerkstatt. For the last four years I have also been teaching the adult German language classes. We have a lot of fun!

Depending on the students' knowledge and their interest in the German language and culture, I develop lessons that are engaging and fun, geared to increase their German vocabulary while enriching their understanding of the German country and diverse cultures.
